So glad they brought this classic to Steam!! I've already spent over two hours playing it. Such sweet memories. I'll be buying it for my mom soon, as this was her favorite PopCap game (besides Luxor of course).. Amazing game from back when PopCap made games and not in-app purchase based fruit machines.. It didn't work when I dl windows 10. Went in setting and changed the display to 125% and now it works. Hope this helps others. Simple but fun game.. ADDICTIVE VERY ADDICTIVE. Total ♥♥♥♥ing Rip off, Game does not work on my very powerfull computer. Does not evens start i just get an error message. Who doesn't love fireworks? In fact, who doesn't love being the one who sets them off? Fireworks have always fascinated me, and I certainly do love the concept ol Rocket Maina. Popcap games KNOWS haw to make simple pick-up-and-play games that you can play for a few minutes at a time, and have a lot of fun with when you have some spare time. I really don't need to say anything more.

It's Rocket Mania. It's a fireworks game. Instant winner in my book, and a very high recommendation.. Pretty addictive and challenging, your reflexes will really be put to the test as you figure out how to chain rockets together for those massive combos.. Who doesn't love fireworks?
